CLEAR SEALER PRODUCT GUIDE

Clear Sealer is a clear semi-gloss water-based acrylic finish designed to protect and beautify tile, concrete, masonry and SoilGlu™ foundation treated surfaces.

WHAT IS CLEAR SEALER USED FOR?

Clear Sealer can be used with:

- SoilGlu™ foundation treatments
- Concrete and cement
- Masonry and tiles

INTERESTING BENEFITS

- Clear semi-gloss sealer
- Water based
- Easy to apply and clean up
- Easily applied to a wet surface
- Waterproofs porous materials
- Withstands extreme weather
- Resists dirt, grease, and oils
- Helps prevent growth of mould and mildew
- Non-yellowing and UV resistant
- Environmentally friendly

APPLICATION METHODS

Clear Sealer is applied using a surface application method.

WHEN TO USE

Use Clear Sealer to enhance and protect porous surfaces. Apply Clear Sealer at 1L per 5 -7 m² area.

APPLICATION METHOD

1. Measure application area (m²)
2. Calculate Clear Sealer (L) required: 1L Clear Sealer per 5 - 7m²
3. Purchase required product from Prozyme or an authorised distributor
4. Prepare application equipment
5. Apply Clear Sealer at an application rate of 1L Clear Sealer per 5 - 7m²

CLEAR SEAL
*protect & beautify
your home*

APPLICATION METHODS CONTINUED

6. Adjust application rates where necessary
7. Allow to cure for 2 - 4 hours
8. Reapply another coat
9. Clean equipment and work area
10. Product fully cures after 7 days

CLEAN UP & STORAGE

CLEANING UP

Clean all equipment and tools immediately after use using a soft bristle brush and water.

STORAGE

Store out of direct sunlight and at room temperature.
